Audio/Video Recording Release Form

Research title ____________________________
Primary Investigator ________________________
Student Researcher(s) ________________________

Directions: Include this form in your interview protocol if you will be audio or videotaping participants. If you are audio or videotaping children, you will need to have their parents' permission. Please include only those uses of the recordings that you intend. All are included here to give you an idea of how you might want to use the recordings in the future. If you think that someday you might put the recordings on a web site, ask permission now, rather than having to go back to the participants later. If you have no intention of using them on a web site, do not include that option on this form. If you include #4, specify what level classroom—elementary/middle/high school/college, and for what purpose. Delete these instructions before printing this form.

As part of this project, I will be making audio or video recordings of you [your child] during your participation in the research. Please indicate what uses of these audio/video recordings you are willing to permit, by putting your initials next to the uses you agree to, and signing the form at the end. This choice is completely up to you. I will only use the audio/videotapes in ways that you agree to. In any use of the tapes, you [your child] will not be identified by name.

1. [ ] The audio/video recordings can be studied by the research team for use in the research project.
2. [ ] The audio/video recordings can be used for scientific publications.
3. [ ] The audio/video recordings can be shown at scientific conferences or meetings.
